Summary

DevOps Engineer skilled in automating deployments, managing cloud infrastructure, and ensuring system reliability. Experienced with CI/CD pipelines, containerization, and monitoring solutions.

Core Skills

- **Cloud Platforms:** AWS, Azure
- **CI/CD Tools:** Jenkins, GitHub Actions, GitLab CI
- **Containers:** Docker, Kubernetes
- **Infrastructure as Code:** Terraform, Ansible
- **Monitoring:** Prometheus, Grafana, ELK Stack
- **Scripting:** Python, Bash
- **Version Control:** Git, GitHub

Experience

DevOps Intern – TechNova Solutions, Bangalore (May 2026 – Aug 2026)

- Automated deployment workflows using GitHub Actions.
- Assisted in migrating legacy applications to Docker containers.
- Configured monitoring dashboards with Grafana for production systems.

Projects

- **CI/CD Pipeline:** Built a Jenkins pipeline for Java microservices, cutting release time by 35%.
- **Kubernetes Deployment:** Deployed containerized apps with auto-scaling and rolling updates.
- **Monitoring Setup:** Implemented Prometheus alerts for system health and uptime.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering Indian Institute of Technology, Bangalore (Expected Graduation: 2027)

Certifications

- AWS Certified Cloud Practitioner
- Docker & Kubernetes Fundamentals

Highlights

- Strong debugging and problem-solving skills.
- Hands-on experience with backend systems and cloud automation.
- Passionate about building scalable, reliable infrastructure.
